Positive news from the AGM

Key insights from yesterday's AGM during which Datagroup issued an initial FY'19E guidance and provided an update on current trading:

- FY'19E guidance looks conservative.** Management guides for c. 3% yoy sales growth to € 280m and c. 25% EBITDA growth to above € 43m, which is in accordance with our bottom-line estimates (eH&A: € 290m sales / € 43.5m EBITDA). Note that absent IFRS 15 / 16 accounting changes the guidance would be for 5% yoy sales growth and 6% yoy EBITDA growth. Importantly, Datagroup tends to guide conservatively: it raised guidance once last fiscal year and twice the year before. Hence, we see upside to the outlook, backed by strong new client wins (see below), and expect news flow to stay positive.
- Appealing mid-term outlook points toward substantial upside to our estimates:** Management targets up to € 500m sales by 2021E in a best case scenario supported by potential further M&A (eH&A: up to € 170m external growth), which has always been a crucial and value-accretive part of the strategy. Note that targets can typically be bought at low multiples of 3.5x EBITDA on average, suggesting well-manageable cash needs of <€ 55m (eH&A) to execute on the external growth objective. The EBIT margin is targeted to reach around 10% by 2021E (eH&A: 9.3%) suggesting Datagroup may achieve up to € 50m EBIT in a best case vs. our current conservative expectation of only € 30m.
- Current trading remains brisk.** After the first 5-and-a-half months of the current fiscal year, Datagroup has signed 14 new CORBOX customers and managed to up-sell 9 clients to new modules. This is remarkable considering that a total of 20 new clients were signed and 14 up-sold in the whole of FY'18. It not only confirms the excellent value proposition of CORBOX but should also reflect positively on Datagroup's positioning in the new end-market „Financials“, which it has entered through the take-over of IKB Data. In fact, Datagroup scored four new clients in this sector within the past six months. Together with >75% recurring sales, visibility on future growth hence looks firm.

Reiterate **BUY** with a **€ 52.00 PT** based on DCF.

1. General Information/Liabilities

This research report has been produced for the information purposes of institutional investors only, and is not in any way a personal recommendation, offer or solicitation to buy or sell the financial instruments mentioned herein. The document is confidential and is made available by Hauck & Aufhäuser Privatbankiers AG, exclusively to selected recipients [in DE, GB, FR, CH, US, UK, Scandinavia, and Benelux or, in individual cases, also in other countries]. A distribution to private investors in the sense of the German Securities Trading Act (WpHG) is excluded. It is not allowed to pass the research report on to persons other than the intended recipient without the permission of Hauck & Aufhäuser Privatbankiers AG. Reproduction of this document, in whole or in part, is not permitted without prior permission Hauck & Aufhäuser Privatbankiers AG. All rights reserved.

Under no circumstances shall Hauck & Aufhäuser Privatbankiers AG, any of its employees involved in the preparation, have any liability for possible errors or incompleteness of the information included in this research report – neither in relation to indirect or direct nor consequential damages. Liability for damages arising either directly or as a consequence of the use of information, opinions and estimates is also excluded. Past performance of a financial instrument is not necessarily indicative of future performance.

2. Responsibilities

This research report was prepared by the research analyst named on the front page (the "Producer"). The Producer is solely responsible for the views and estimates expressed in this report. The report has been prepared independently. The content of the research report was not influenced by the issuer of the analysed financial instrument at any time. It may be possible that parts of the research report were handed out to the issuer for information purposes prior to the publication without any major amendments being made thereafter.

3. Organisational Requirements

Hauck & Aufhäuser Privatbankiers AG took internal organisational and regulative precautions to avoid or accordingly disclose possible conflicts of interest in connection with the preparation and distribution of the research report. All members of Hauck & Aufhäuser Privatbankiers AG involved in the preparation of the research report are subject to internal compliance regulations. No part of the Producer's compensation is directly or indirectly related to the preparation of this financial analysis. In case a research analyst or a closely related person is confronted with a conflict of interest, the research analyst is restricted from covering this company.

4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjustment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

Hauck & Aufhäuser Privatbankiers AG uses the following three-step rating system for the analysed companies:

Buy: Sustainable upside potential of more than 10% within 12 months
Sell: Sustainable downside potential of more than 10% within 12 months.
Hold: Upside/downside potential is limited. No immediate catalyst visible.

NB: The ratings of Hauck & Aufhäuser Privatbankiers AG are not based on a performance that is expected to be "relative" to the market.

The decision on the choice of the financial instruments analysed in this document was solely made by Hauck & Aufhäuser Privatbankiers AG. The opinions and estimates in this research report are subject to change without notice. It is within the discretion of Hauck & Aufhäuser Privatbankiers AG whether and when it publishes an update to this research report, but in general updates are created on a regular basis, after 6 months at the latest. A sensitivity analysis is included and published in company's initial studies.
